

Peter McCann For Vice President of City

Introduction

Hello City Campus!

My name is Peter McCann, and I am running for the role of vice president of city campus for the academic year of 2023/2024.

I am currently studying electronic engineering in Grangegorman and want to run to show more visibility to the engineering departments, as well as use what I have learned to better the experience at TU Dublin. That said, Bolton Street, Augier Street and Grangegorman all have problems that need to be addressed and with help from the students these can be resolved.

Vote for me for a better City experience.

Main Goals

These are the three main areas I hope to explore and develop as part of a hardworking team.

1. Facilities

Facilities are a crucial area for me as some campuses are lacking in basic facilities. As part of a team working with the students, and also the full-time and part-time students' union members, I would love to investigate and improve the facilities. This includes Linen Hall's broken windows and Bolton Street's current bad smell and broken water fountains, as well as maintaining the much more improved facilities in Grangegorman.

2. Student Engagement

Class reps are a great way to meet the needs of many from only talking to a few. They are an invaluable subset of the college that allow for an understanding of how the college operates throughout the different departments. I would be working with them more closely to create a college that takes the students experiences into account. As part of my campaign, I believe they need more guidance to be the best they can be. It is one thing to bring up a problem, and another to have the ability to solve it yourself. I believe class reps need to be able to do both.

3. Services

The services in TU Dublin are still not at the place they should be, whether it's the canteen prices or the closing times of the café and shops, the students are not happy with its current state. Working with the college, students, and my team this situation could be rectified and allow for a more pleasant college experience.

My Experience

I have been a member of TU Dublin for 5 years; first as a level 7 student and now as a graduating level 8 student. My expertise would be in problem solving and innovation and this would allow for a different perspective on the problems currently faced by the college. I have been here long enough to see that there is still a lot of things that need to be changed for TU Dublin to get the recognition it deserves.

So Why Choose me?

I am a very dedicated and thoughtful person with years of class rep and SU experience. If voted in I would do as much as a can to further improve the experience of students.

Regards,

Peter
