Efforts to engage more students, programme chairs, and university personnel in promoting this role vary by campus, but we are actively working on it.

Question and Answer – There are concerns regarding registration issues, as tomorrow is the deadline for fee payments. What options are available for those who are neither registered nor have paid their fees? It was suggested that a return to the previous system might be possible, allowing students to appear for exams and provide their student number for access.

Answer: I will request that communication be directed toward the students. Please email Naomi; currently, the focus is on assisting students who need to progress.

Promoting the Irish Language: We strive to post Irish translations whenever possible. At this time, we do not have anyone in a position to translate posts; however, we do have individuals proficient in Irish Gaelic who can assist with promotion.

Question: Regarding second-year planning, some students have not been able to register yet and have received no feedback. They have numerous open tickets and have not had any communication. Despite receiving emails about registration, their entire class remains very frustrated.
