**1. Please introduce yourself. What would you like students to know about you?**

Howdy y'all, my name is Shane, I am a final year sustainable energy engineering student, and during my time in this university, I have spent my fair share of time dealing with the student union, and a class rep, but more so my experience shines within my time in societies as chair of the largest society on campus over the last 3 years, and I've seen and been a first-hand part of making the biggest events happen on Tallaght Campus. I hope to use this experience to build and engage the student base of Tallaght. To promote community in the way that I have been but ensure all students are aware its there

**2. How would you ensure that events and campaigns are appropriate for Tallaght campus?**

I'd gain interest from the students, and use my experience in events planning across Tallaght, over my four years in societies, to run events that are engaging, make a difference and ensure every student has the option to participate in events for themselves. I am someone who likes getting to know people, to put on the events people want to see, and have sufficient experience in it on Tallaght Campus.

**3. What would you like your legacy to be as VP for Tallaght Campus?**

I would hope to leave a legacy of community and connection, which I feel has always had the potential to be achieved, but a lack of events catered to student feedback and onsite regular activities has left us sorely lacking. Again I aim to use my experience in leadership and community building to hopefully make Tallaght Campus feel like a safe space for all students

**4. How will you ensure that students in Tallaght Campus feel heard?**

Regular upkeep and communication I feel is so important, having a regular set of hours during the week that is clearly communicated to the student base to talk to me, to communicate their issues.

**5. How will you support the recruitment, training and retention of Class Reps on Tallaght Campus?**

A more consistent approach to engagement with reps, again prioritising an open space, with regular hours, for class reps to talk and communicate their issues. Class reps problems deserve to be heard more frequently than at meetings, and I believe better engagement will be seen with more constant support, also prioritising the return of overnight trainings for class reps as they provided excellent opportunities for social circles to develop over my first two years in the university as a class rep

**6. How would you improve campus experience in Tallaght Campus?**

Ensuring the student union's events basis is not limited to certain weeks of the year, providing regular, smaller events for people to get to know each other, as well as prioritising a stronger relationship between the student union and societies department to develop my overall aim of community further in Tallaght, not bound by departmentalism

**7. Is there anything that you would like to add?**

Simply put, I am someone who has constantly added to and developed student life in TU Dublin. I am an individual who wants to be the voice for change and compassion amongst Tallaght Students. I'd like to be a voice to develop the campus into a community, provide a space and opportunity within the union to get people in and socialising.
